installation south of Kiskunfelegyhaza, Other Hungarian troops at the military post were quartered in the barracks installation just east of the railroad station and in the former teachers! training college on the south side of the street from the railroad station to the main square. A Hungarian sentry with red service color was seen in front of the third building north of the town hall on the main square. A high-echelon unit of the Hungarian fray was located in this building.	
2	25X1
	25X1
probably belongs to the deserter's unit which, in August 1951, was stationed	
in Camp Kislord,	٦
Comments Components of the motorized artillery regiment	┙
are carried in Kiskoeroes, This regiment is probably subordinate to a motorized	
infantry division in Kiskunfelegyhaza. It remains to be determined whether the	
artillery unit in the new barracks installation south of Kiskunfelegyháza is	
assigned to this or another artillery regiment.  Gorment, According to previous information, the construction of the barracks	;
installation in Szabadszállas began in the spring of 1951.	25X1
